HUGE SCREENS & IMMERSIVE SOUND

Full-HD projection fills the space, powered by corporate-grade, high-brightness projectors that stay crisp even with the lights on. Every seat has a clean view, every replay stays sharp, and every goal lands exactly as it should. The sound carries real weight, with stadium-style energy that lets you feel the crowd, the tension, and the roar. Professional audio systems create an immersive, punchy atmosphere, all carefully tuned and managed by our in-house AV team.
